FOR IMMEDIATE RELEASE

**Systron Donner Inertial Awarded HAWK Advanced Jet Trainer Contract
from BAE Systems Rochester, United Kingdom**

Concord, CA – May 6, 2016 – BAE Systems Rochester, United Kingdom has awarded a contract to Systron Donner Inertial (SDI), a brand of InnoVista Sensors, for SDI’s 5655, tri-axis sensor assembly system, for use in the HAWK Advanced Jet Trainer Program’s attitude control systems.

The 5655 tri-axis rate sensor assembly includes three (3) high performance Quartz MEMS QRS11 gyroscopes housed in a small ruggedized light weight container. SDI’s QRS11 rate gyros have delivered over 7 million failure-free service operating hours supporting critical customer applications worldwide.

BAE Systems is an industry leader in both Civil Aerospace and Defense platforms. “SDI is pleased to continue its long term service relationship with BAE Systems Rochester, United Kingdom, and SDI is honored to be selected again as part of the Hawk Advanced Jet Trainer Program,” said David Hoyh, Director Sales & Marketing for SDI.

For further information and specifications on the 5655, or for information on the complete SDI product line, call +1 925-979-4500, e-mail: sales@systron.com; or visit us on the Web: www.systron.com.

About Systron Donner Inertial:

Systron Donner Inertial (SDI) is the world's leading supplier of Quartz MEMS Inertial Sensing Products and Systems providing precision systems solutions to aerospace, military and commercial aircraft, marine and land vehicular applications. Our products and systems are ideally suited for use by Integrators and OEMs. SDI is a pioneer in the development of Quartz MEMS technology utilizing tuning-fork designs, originally introduced at the heart of the company's renowned solid-state quartz MEMS sensor design. SDI is continuously developing leading-edge technologies applied to innovative, breakthrough products which are enabling advanced performance in critical military and commercial Guidance, Navigation and Control (GN&C) applications worldwide.

Our experience is built on over half a century of market and technological leadership in supplying our innovative gyroscopes, linear accelerometers, inertial measurement unit and INS/GPS designs to these markets, contributing to both overall performance and establishing standards for excellent price/performance characteristics.

Systron Donner Inertial is brand of InnoVista Sensors.

About InnoVista Sensors:

InnoVista Sensors™: your trusted partner of choice to face industrial challenges of today and tomorrow.

InnoVista Sensors™ is a worldwide industrial specialist of sensors, controllers and actuators for automated systems.

Through its brands, Crouzet Aerospace, Crouzet Automation, Crouzet Control, Crouzet Motors, Crouzet Switches and Systron Donner Inertial, InnoVista Sensors™ offers a wide range of reliable, efficient and customizable components dedicated to the Aerospace & Defense, Transportation and Industrial market and segments.

Thanks to the recognized expertise of its teams and a strong innovation policy, InnoVista Sensors™ brings performance enhancing solutions to its customers worldwide.
